Re: NASDAE membership

The National Association for State Directors of Arts Education (NASDAE) is a professional group of arts education administrators committed to promoting the depth and breadth of study in the Arts at the state level.

On behalf of NASDAE, I would like to invite you to become a member of this important organization. We are anxious to include representatives from every state in order to share resources for inspired leadership, innovative programs, creative curriculum development and instructional practices through our annual meetings and online discussion groups. The outcomes of the interactions will assist state directors in making effective policy decisions that will impact the Arts at both the state and national levels. Please consider joining this effort so that your voice may be heard.

Membership will be accepted for the fiscal year beginning on July 1 following the NAEA conference.
